SUMMARY

Results-driven Full Stack Developer with experience in building scalable web applications using modern JavaScript frameworks and cloud tools. Strong in front-end (React, Next.js, TailwindCSS) and back-end (Node.js, Express.js, MongoDB, MySQL). Delivered projects like Askly (AI-powered Q&A voice app) and NextBuy (e-commerce platform). Skilled in Docker, Git, Vercel, and API integrations. Passionate about delivering clean code, optimized APIs, and innovative digital solutions.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Python
- Front-End: React, Next.js, HTML5, CSS3, TailwindCSS, Bootstrap, Shadcn/UI
- Back-End: Node.js, Express.js
- Databases: MySQL, MongoDB
- Cloud/DevOps: Docker, Git, GitHub, Vercel
- Tools & APIs: REST API, Postman, AssemblyAI, Stripe, Sanity CMS, Amazon Polly, StackAuth

PROFESSIONAL PROJECTS

Askly – AI-Powered Interactive Voice Q&A Platform | April 2025 - May 2025

- Developed a voice-interactive Q&A platform integrating AI-based speech-to-text and text-to-speech with 95% transcription accuracy using AssemblyAI and Amazon Polly.
- Built scalable, dynamic UI components using TailwindCSS and Shadcn/UI.
- Implemented secure login and session management using StackAuth, reducing unauthorized access attempts by 100%.
- Achieved <500ms latency in response rendering through Convex backend integration.
- Implemented OpenRouter for intelligent, personalized Q&A logic

NextBuy – E Commerce Website | May 2025 - June 2025

- Developed a dynamic full-stack e-commerce site with dynamic server side rendering pages, resulting in 40% faster load times.
- Integrated Sanity CMS for real-time content updates and product management.
- Integrated Stripe for secure checkout, completing test transactions in <3 seconds with 100% reliability.
- Used Docker and Vercel for CI/CD deployment, achieving 99.9% uptime and quick rollbacks.
