PROFESSIONAL PROJECTS

Askly –AI-Powered Interactive Voice Q&A Platform | April 2025 - May 2025

- Developed full-stack voice-interactive Q&A platform using Next.js 15.3, React 18, and Convex backend, enabling real-time AI conversations across 5 coaching modes.
- Integrated AssemblyAI for speech-to-text, OpenRouter for AI processing, and Amazon Polly via AWS SDK for text-to-speech conversion.
- Built RESTful API routes, implemented real-time data synchronization using Convex with React hooks (useQuery, useMutation), and created responsive UI with TailwindCSS v4
- Deployed on Vercel with StackAuth authentication, Next.js middleware for protected routes, and React hooks (useState, useEffect, useMemo, useRef) for state management

NextBuy - E Commerce Website | May 2025 - June 2025

- Built full-stack e-commerce platform using Next.js 15 App Router with TypeScript, implementing server-side rendering for product pages and dynamic routing for categories and individual products.
- Integrated Sanity CMS with GROQ queries to fetch product data, images, and categories, enabling content managers to update inventory without code changes.
- Implemented Stripe payment processing with use-shopping-cart library, including checkout flow, success/error pages, and cart persistence across sessions.
- Developed responsive shopping cart modal using Radix UI Sheet component with real-time cart count updates, item removal, and seamless checkout redirection, deployed on Vercel.
